Applicant has reviewed the Office Action mailed on August 23, 2001. Please amend the above-identified application as follows.

IN THE CLAIMS

RECEIVED

MAR 14 2002

Please amend the claims as follows.

Technology Center 2600

1. (Once Amended) A communication system comprising:

a number of communication circuits disposed to divide a region into communication areas;

wherein each communication circuit communicates using a first polarization in a first portion of its communication area and communicates using a second, different polarization in a second portion of its communication area; and

wherein adjacent portions of communication areas between different communication circuits use the same polarization.

21. (Once Amended) A method comprising:

dividing a region into a number of communication areas, each communication area including a communication circuit;

communicating using a first polarization in a first portion of each communication area;
